

# VIEWPOINTS AND ACTIONS ON THE COMPLEXITY OF VULNERABLE CHILDREN

Melanie Berry Psy.D.

Research Associate, Stress Neurobiology and Prevention Lab University  
of Oregon

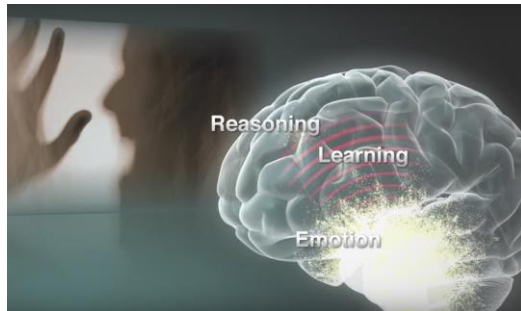

Fellow, Harvard Center on the Developing Child

# 3 Core Concepts of Healthy Brain Development

Brain Architecture Is Established Early in Life and Supports Lifelong Learning, Behavior, and Health

Stable, Caring Relationships and “Serve and Return” Interaction Shape Brain Architecture

Toxic Stress in the Early Years of Life Can Derail Healthy Development

# The IDEAS Impact Framework

**Innovate** to solve unmet challenges

**Develop** a usable program with a clear and precise theory of change

**Evaluate** the theory of change to determine what works for whom and why

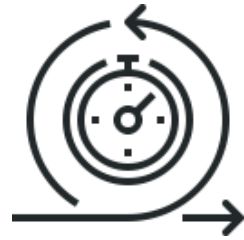

**Adapt** in rapid-cycle iterations

**Scale** promising programs

# Guiding Principles of the IDEAS Framework

***Precision***

***Fast-Cycle  
Iteration***

***Co-creation***

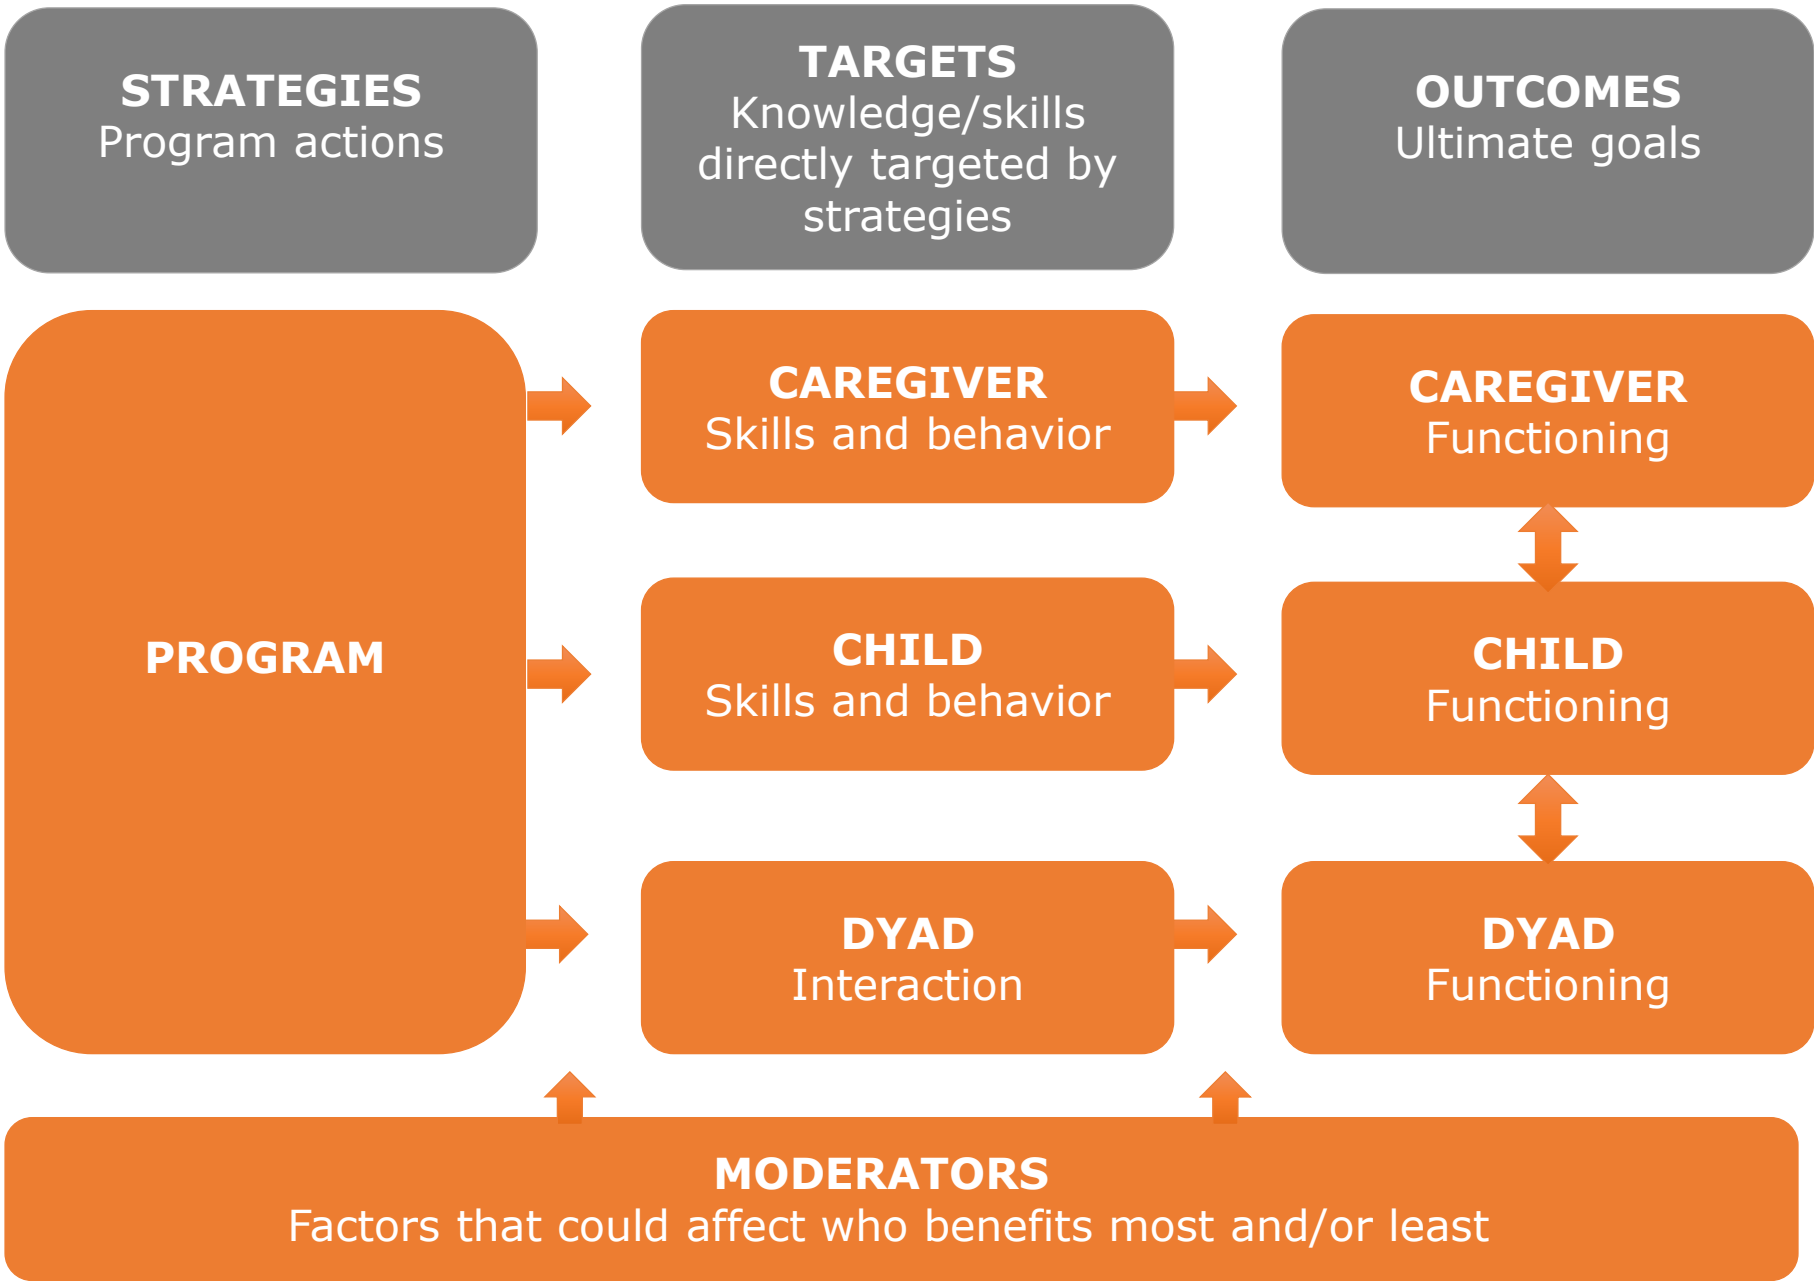

***Shared  
Learning***
